

# BIOTECHNOLOGY

Focused on supplying technical resources to many of the leading biotech companies for 28 years.

## Examples Skills

- ✓ Strategic Planning
- ✓ Program & Change Management
- ✓ Data Transformation & Analysis
- ✓ Lab Informatics

Astrix specializes in the biotechnology manufacturing area which puts our evolving 28+ years of experience in this sector, originating in laboratory informatics, at the core of our industry-leading expertise. Astrix continues to provide our clients in the biotech manufacturing sector with insight-powered guidance and solutions to meet their dynamic and ever-changing needs of this challenging space.

## Strategic Planning

- ✓ Astrix subject matter experts has, at its core, a deep awareness of the implications and impact that changes in scientific, technical, and regulatory environments
- ✓ Our team works closely with clients to develop, support, or lead the creation and implementation of realistic plans using forward-thinking innovation.

## Why Clients Choose Astrix

- ✓ **Biotech Specialization:** Our scientific and technical staffing services provide Bio Tech - based companies with innovative solutions to meet a variety of needs.
- ✓ **Global Network:** Our team of experts is knowledgeable about a variety of scientific and technical skill sets, including microbiologists, chemists, lab technicians, IT professionals, research scientists, and more.
- ✓ **Enhanced Innovation and Quality:** Technical assessment and implementation of data management systems in Bio tech companies engaged in research and production facilities So, we understand your workflows.
- ✓ **Recruitment:** A combination of proprietary data sets and recruiters that have scientific or technical background in their areas of focus.

# Solutions Overview

## Comprehensive Scientific and IT Staffing Solutions:

- From research scientists to lab technicians, we provide highly skilled professionals across various scientific disciplines.

## Commitment to Quality and Compliance:

- Rigorous screening and evaluation procedures to ensure that only the most qualified candidates are presented to our clients.

## Permanent Staffing:

- Find the perfect fit for your team with our permanent staffing solutions.

## Executive Search:

- Access top-tier talent for leadership and executive positions.

## Skill Sets/Experience:

- ✓ Research & Development (R&D)
- ✓ Preclinical (in vivo & in vitro)
- ✓ Translational Sciences
- ✓ Clinical Development & Operations
- ✓ Technical Manufacturing/Bio-Manufacturing (Pilot & Full-Scale)
- ✓ Process Development (Upstream and Downstream)
- ✓ Manufacturing, Science and Technologies (MS&T)
- ✓ QA/QC/QMS
- ✓ GMP/GLP/GDP/GxP Compliance
- ✓ Analytical Chemistry/Biochemistry
- ✓ Molecular Cell Biology
- ✓ Cell culture
- ✓ Microbiology
- ✓ Regulatory Affairs
- ✓ Pharmacology & Toxicology
- ✓ PK/DM
- ✓ Assay Development/Validation/Tech Transfer
- ✓ Technical Writing
- ✓ Biometrics
- ✓ Project & Program Management
