

Chemical & Material Sciences

Focused on supporting chemical & material science organizations for over 28 years.

Example Skills

- ✓ Research and Development
- ✓ Batch Making
- ✓ Environmental Testing
- ✓ Formulations
- ✓ Chemical & Physical Testing
- ✓ QA/QC

Astrix specializes in providing staffing solutions tailored for the needs of the Chemical & Material Sciences industry. Whether you're seeking expertise in research, development, manufacturing, or regulatory compliance, Astrix delivers specialized talent to support your organization's success.

Why Clients Choose Astrix?

Industry Expertise:

- ✓ Over 28 years of experience in the life sciences sector.
- ✓ Deep understanding of Chemical & Material Sciences industry dynamics

Customized Solutions:

- ✓ Tailored staffing strategies to meet your unique requirements
- ✓ Flexible options including temporary, permanent, and project-based placements

Specialized Talent:

- ✓ Rigorous screening process ensuring quality and expertise
- ✓ Access to candidates with advanced degrees and specialized skills

Solutions Overview

Regulatory Compliance:

- Expertise in navigating regulatory frameworks (e.g., FDA, EPA).
- Candidates skilled in quality assurance and regulatory affairs.

Innovation and Research:

- Support for R&D initiatives with skilled scientists and researchers.
- Expertise in formulation, process development, and analytical chemistry.

Operational Excellence:

- Enhance manufacturing capabilities with qualified engineers and technicians.
- Improve efficiency and quality with experienced operations managers.

Our Solutions Include Talent With Expertise In:

- ✓ Color Matching
- ✓ Batch Making
- ✓ Formulations
- ✓ Environmental Testing
- ✓ Hand/Automated Spray
- ✓ Physical Testing
- ✓ Surface/Substrate Analysis
- ✓ GC & GC/MS
- ✓ HPLC & LC/MS
- ✓ FT-IR
- ✓ GPC
- ✓ ICP and ICP/MS
- ✓ IR
- ✓ AA
- ✓ UV-vis
- ✓ ISO/QS 9000
- ✓ OSHA Training (certification or training etc.)
- ✓ GMP/GLP
- ✓ Wet Chemistry
- ✓ Physical Testing
- ✓ Engineering
- ✓ Analytical Testing
