Astrix has decades of specialized expertise in professional recruitment for clients in the cosmetics and personal care industries.

We provide comprehensive coverage across the entire organization, including key roles in operations, quality, regulatory affairs, and research and development. Additionally,

Why Clients Choose Astrix?

Industry-Specific Expertise

- With years of experience in the cosmetic and personal care sector, our team understands the unique challenges and opportunities within the industry.
- We leverage this knowledge to identify and place professionals who can add immediate value to your organization.

Quality Candidates

- Our rigorous screening process ensures that we present only the most qualified candidates.
- From formulation scientists to regulatory experts, we provide access to top-tier talent with the skills and experience to meet your specific needs.

Tailored Solutions

- We understand that every business is unique.
- Our customized staffing solutions are designed to align with your company's goals, culture, and operational requirements, ensuring a seamless fit.

Solutions Overview

Flexible Staffing Options:

- We offer a variety of staffing solutions, including temporary staffing, temp-to-perm staffing, and direct hire tailored to meet your specific project requirements and timelines.

Thorough Screening:

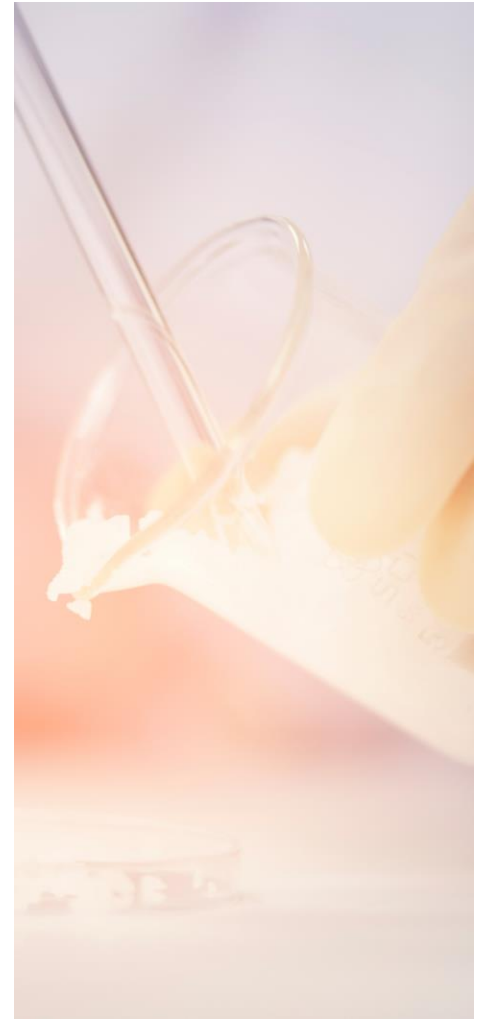

- Our meticulous screening and evaluation processes ensure that only the most qualified candidates are presented to you, including detailed background checks and technical assessments.

Ongoing Support:

- Beyond recruitment, we offer ongoing support to ensure successful integration and retention of your new hires. Our commitment to building lasting relationships means we're with you every step of the way.

Regulatory Compliance:

- Navigating the complex regulatory landscape of the cosmetic and personal care industry can be challenging. Our candidates are well-versed in current regulations and best practices, ensuring your products meet all necessary standards.
